

The new Actros L ProCabin

# THE NEW SHAPE OF EFFICIENCY.

**Design that pays off:** The pioneering cab in the new Actros L combines aerodynamics, comfort and safety – for even more efficiency while on the road.

Mercedes-Benz  
Trucks you can trust

# THE NEW ACTROS L.

## Designed for your workplace: on the road.

With the revolutionary design of its cab, the new Actros L ensures improved aerodynamics. After all, every litre of diesel counts, especially on long drives. With the new Actros L, there is no reduction in comfort or safety – only in fuel consumption. A variety of features ensure a relaxed driving experience and the peace of mind that you're always safe on the road.

## Efficiency

Nice and economical: the Actros L looks good – on the road and on your balance sheet. This is due to the front end, which has been extended by 80 mm for significantly improved aerodynamics. Every detail of the new ProCabin has been designed to direct airflow around the vehicle with as little resistance as possible. The result is up to 3%<sup>1</sup> reduction in fuel consumption. In conjunction with the economical third-generation OM 471 engine, which has already given an improvement of up to 4% on the second-generation OM 471 engine, it's the perfect choice for long drives.

When the lights come on, it becomes clear that the Actros L has been designed for efficiency and durability: all the vehicle's lights feature LED technology. This improves visibility and with it, safety. The optional Matrix LED headlights in particular leave virtually no spot in the dark.

# THE NEW ACTROS L.

## Comfort

The Actros L impresses with a range of comfort features that will benefit you on long drives in particular. The new Multimedia Cockpit Interactive 2<sup>2</sup> is even easier to use thanks to voice control, new applications and improved connectivity. It also gives the user access to numerous digital services. By intelligently linking assistance systems, your work behind the wheel is made easier. And when you turn off the engine, you'll be delighted with the cosy atmosphere, the bed with its full slatted frame and Extra PremiumComfort mattress as standard, as well as as the optional SoloStar Concept<sup>3</sup> for cabs that has all the comfort qualities that count.

## Safety

In the Actros L, safety is the top priority. A range of safety assistance systems support you while you're behind the wheel. The new Active Brake Assist 6 monitors 270 degrees of the vehicle's surroundings and can now even recognise cyclists. Active Sideguard Assist 2 supports when making left turns and can initiate a braking manoeuvre in critical situations. These systems go above and beyond the legal requirements in some areas – after all, you are driving a Mercedes-Benz truck.

## Services

We are committed to helping you keep your Actros L where it earns money: on the road. With customised service contracts, a Europe-wide workshop network with extremely high coverage and 24-hour support with Mercedes-Benz Trucks Service24h. Our comprehensive service package, Mercedes-Benz Trucks Complete, includes maintenance, inspections, repairs, replacement of wear parts and much more – all of that over the entire vehicle life cycle.<sup>4</sup> When it comes to vehicle management, you have access to numerous digital services. In addition, Daimler Truck Financial Services offers customised financing services, both for your vehicle usage and vehicle ownership needs.

## The digital service world

The My TruckPoint online customer portal from Mercedes-Benz Trucks gives you an overview of your vehicles as well as access to the digital service world of Mercedes-Benz Trucks. The free<sup>5</sup> connectivity solution TruckLive connects your truck for more efficient maintenance management and dynamic route guidance. The premium telematics services from Fleetboard make managing your fleet even more efficient. And Mercedes-Benz Trucks Uptime supports you with the analysis of vehicle data to avoid predictable breakdowns and to better plan maintenance.

## The aerodynamics features at a glance

The name 'ProCabin' marks the departure of the new vehicle and cab design from the tried-and-tested series. Depending on the intended use and the customer's requirements, three cab variants are available: ProCabin Stream, Big and Giga.

1. New elongated aerodynamic front & bumper and various sealing measures for optimised airflow
2. Optimised connection between bumper & entrance, closing vertical gap
3. Lowered front end and aerodynamic underbody panelling (C8Y)<sup>6</sup>
4. Air deflectors with additional pre-spoiler on the roof<sup>7</sup>
5. Cab side deflectors with elongated canvas design
6. A-pillar trim with optimised aerodynamics (F4V)<sup>8</sup>
7. Aerodynamic side skirts (C8Z) with additional rubber extensions<sup>9</sup>
8. Front wheel arch skirt with optimised aerodynamics (CZE)
9. Front mirror with optimised aerodynamics

<sup>1</sup> Information based on VECTO certification measurements on comparably equipped vehicles.

<sup>2</sup> Available starting 04/25.

<sup>3</sup> LHD only.

<sup>4</sup> Availability and features vary by country. For more information, please visit [www.mercedes-benz-trucks.com](http://www.mercedes-benz-trucks.com)

<sup>5</sup> At the end of the 36-month free period, TruckLive is available as a paid service. For customers of our Fleetboard paid services or a Mercedes-Benz Trucks service contract, TruckLive remains free of charge even after the end of the 36-month period.

<sup>6</sup> Not in conjunction with: nR/nRA/nRL/A1Y/A1V.

<sup>7</sup> In conjunction with ProCabin Stream/ProCabin Big.

<sup>8</sup> In conjunction with MirrorCam.

<sup>9</sup> EPDM plastic trim on the top and bottom, in conjunction with nR/nRA/nRL only on the top.
